

ZEOLEX[®] EXTRA

SAGARPA AUTHORIZATION: A-7356-002

Antimycotoxins agent, sodium aluminosilicate and hydrated calcium.

USE IN:

FORMULA:

Each 100 g contains:

Silicon dioxide SiO ₂	57.3 g
Aluminum trioxide Al ₂ O ₃	10.8 g
Magnesium oxide MgO	0.3 g
Sodium oxide Na ₂ O	1.6 g
Potassium oxide K ₂ O	1.8 g
Calcium oxide CaO	3.3 g
Iron trioxide Fe ₂ O ₃	0.6 g

INDICATIONS:

Additive for balanced feed, antimycotoxins agent. It is an innocuous, efficient product in the elimination of mycotoxins present in the balanced feed. It has a proven adsorption capacity of 90% aflatoxins and 30% for fumonisin B1. For use in laying hens, breeding birds, broiler chickens, fattening pigs, beef and dairy cattle.

ADMINISTRATION:

Oral, added in feed.

DOSE:

It is recommended to use 1 kg to 2 kg of product per ton of feed.

INSTRUCTIONS AND WARNINGS:

It is very important to ensure uniformity in the mixing in order to guarantee the effectiveness of the product. Wear goggles and dust mask.

PRESENTATIONS:

25 kg sack.
